

**LISTING OF CLAIMS:**

1. (Currently amended) An absorbent article comprising:  
an absorbent body comprising a pulp fiber and a super absorbent  
polymer, in which a content of the super absorbent polymer is not  
less than 55% by weight; and

a top sheet which is liquid permeable and uses a non-woven  
fabric to cover the absorbent body,

wherein a fiber thickness, a wet strength, and a basis  
weight of the non-woven fabric in the top sheet are set to be not  
more than 2.0 denier, not less than 300g/25mm, and not less than  
10g/m<sup>2</sup>, respectively.

2. (Canceled)

3. (Canceled)

4. (Currently amended) The absorbent article as claimed in  
~~any one of claims 1 to 3~~ claim 1, wherein at least a portion of  
the non-woven fabric in the top sheet is subjected to a  
hydrophilic treatment.

5. (Original) The absorbent article as claimed in claim 1,  
wherein the super absorbent polymer further meets the following  
1) to 3) absorption capability conditions:  
1) an absorption speed of 30cc of artificial urine is 50 seconds  
or less,

- 2) an absorbed amount of artificial urine under a pressure of 20g/cm<sup>2</sup> is 28cc/g or more, and
- 3) a moisture absorbing blocking rate is 50% or less.

6. (Original) The absorbent article as claimed in claim 5, wherein the absorbent body comprises a single layer of the pulp fiber and a mixed layer of the pulp fiber and the super absorbent polymer.
